LOT 230

A gold, platinum and diamond panel shaped ring, mounted with the principal cushion cut diamond with graduated circular cut diamonds in a radiating design, detailed 'Plat 18ct', ring size approx M, with a case.

Estimate: £1,000 - £1,500

Condition Report

230. Principal cushion shaped diamond slightly draws colour but looks to be a fairly clear stone. Two or three of the surrounding diamonds have surface reaching fractures/inclusions. Crack to the bottom and top of one of the shoulders. The ring is of recent manufacture representing an early 20th century design using old cut diamonds. Weight 5.9g.
