## Condition Report

1062. Currently working but please be aware we give no guarantees to working order or reliability of any clock or watch. Centre seconds start/stop on the top button, but bottom button only resets it back to about 3 seconds and not right back to zero. Watch adjusts and calendar and date roll-over as they should. Dial is a little dusty, but is overall in good clean condition. Bezel is detached and glass is broken, otherwise case has typical light surface scratches and wear.
