### Condition Report

1052. The watch is currently running but please be aware we give no guarantees to working order or reliability of any clock or watch. However, the minute hand is partially loose so would need properly re-attaching. Is generally in fairly good condition with typical surface wear and scratches to the case. Dial is a little dirty and has numerous tiny specks/marks to dial visible under magnification. Glass scratched and dirty around the edges, would benefit from a clean.
