LOT 705

A gold, opal and ruby cluster ring, mounted with six opals and seven small cushion cut rubies at intervals, ring size approx O.

Estimate: £200 - £300

Condition Report

705. One of the opals is chipped at the top. The opal to one side of this looks to be a replacement as it has no surface wear. Another opal is both cracked and chipped. The other three opals have slight surface wear. The rubies are of medium colour saturation and have very minor surface wear to the table facet edges. The gold is unmarked and has not been tested by us. Diameter of the top of the ring approx 1.2cm. Length of sample opal 4mm. The opals are natural and solid. Weight 3.1g.
