LOT 1220

A 19th century rosewood stick barometer, the ivorine dial with vernier scale and inscribed 'John Good 19 High Strt Hull', the arched case with mercury thermometer to trunk and turned brass cistern, height 92cm.

Estimate: £300 - £500

Condition Report

1220. Looks to be in generally good condition, if a little bit dirty and dusty. No significant damage or repairs, but typical wear and scuffs commensurate with age. From the part of the tube that is visible, there is no apparent separation to the mercury.
