

Collectors' Items, Works of Art and Light Fittings / Friday, 4th September 2020 / Lot 2555

LOT 2555

A late Victorian burr walnut and ebony banded games compendium, the hinged lid and double-hinged front enclosing a boxwood and ebony Staunton chess set, height of king 6.5cm, draughts counters, a cribbage board, bone and ebony dominoes, model horses, a folding leather board and a pack of cards, height 17.7cm, width 34cm.

Estimate: £300 - £500

Condition Report

2555. Exterior of case has some slight fading to front and a small chip off the veneer on the corner of right door, also some minor scuffs and scratches. There is a small crack to one black pawn collar and stem. The cribbage board is matched up, as it appears to be slightly small for the recess. The dominoes are all bone and not ebony. The horse and riders have oxidized to such an extent that they have almost disintegrated. The two fences and stream are ok. The board is a bit worn to the folds, but is reasonably ok.
