Condition Report

605. The emerald is medium to pale colour saturation. The diamonds are attractive white stones but have a few internal inclusions. The ring is in overall good condition. The under bezel of the ring is in good condition. The gemstones are in good condition and as far as we can see the stones are secure. There are no additional marks to that which states 'Plat'. The ring is a modern interpretation of an Edwardian design. As generally with modern emeralds there is the possibility that the emerald may have been treated to enhance colour and clarity. The ring is generally attractive. Weight 4.5g.
