

## LOT 2630

After the antique - a 19th century Italian verdigris patinated bronze figure of Narcissus, typically modelled standing on a stiff leaf decorated base, height 62cm (overall weathered surface).

Estimate: £200 - £400

---

## Condition Report

2630. The figure has an overall green and black weathered surface, having clearly been outside for a long period of time, but otherwise the condition is ok. The underside of the base has been filled with concrete which has quite an uneven surface.
