Condition Report

1150. Generally good condition with no significant damage or repairs. We have tested it for over 2.5 hours and it appears to be keeping good accurate time without interruption, but please be aware we give no guarantees to working order or reliability of any clock or watch. No service history. It is difficult to date Atmos clocks, but the serial number would suggest it is a 1970/80s model. No parts appear to be missing.
