Condition Report

1025. The watch is in generally good condition. It winds smoothly and is currently running and keeping good time, but please be aware we give no guarantees to working order or reliability of any clock or watch. The case is a little dirty around the lugs, but otherwise just typical light surface scratches and wear. The dial has some surface spotting visible under magnification and some slight yellow discolouring and wear particularly around 6 o'clock and 9-10 o'clock areas. Lettering is good. The luminous numerals look original but do have some deterioration in places.
