

Cameras and Scientific Instruments / Thu, 15th October 2020 / Lot 1229

LOT 1229

An Almagest orrery, limited edition number 001/006, the planets positioned within an engraved zodiacal ring, on an oak stand with glass dome, total height 35cm (lacking control box).

Estimate: £500 - £700

Condition Report

1229. The orrery is in cosmetically good order with no significant damage. Glass in good order and oak base is clean. When plugged in and switched on the orrery starts to work and the discs and planets start to move, but unfortunately this is missing its control box so its functions are limited.

Please note, we are selling this as a decorative object and can give no guarantees to working order or reliability.
