

Cameras and Scientific Instruments / Thu, 15th October 2020 / Lot 1231

LOT 1231

A Franke & Heidecke Rolleiflex twin-lens reflex camera, serial number '2,8F 2438121', with Heidosmat 1:2.8/80 and Planar 1:2.8 F=80mm lenses, leather cased.

Estimate: £60 - £100

Condition Report

1231. The camera appears to be working, it winds and fires.

The camera is generally a bit dirty and dusty with some minor wear to the black paintwork in places on some edges.

The lenses are also a bit dusty and dirty, but both appear to be otherwise in good order with no significant damage, no apparent scratches and no visible fungus. The 'hazing' in the online images is just where it was a bit dusty. The camera would certainly benefit from a clean.

The lens covers are a bit scratched and worn.

The leather outer case is also a bit dirty and dusty with typical light surface wear, scuffs and scratches.
