

Clocks and Barometers / Thu, 15th October 2020 / Lot 1210

### LOT 1210

A George III inlaid oak and mahogany crossbanded longcase clock with eight day movement striking on a bell, the painted breakarch dial with subsidiary seconds and inscribed 'Smith & Sons Walton', the hood with swan neck pediment, glazed door and turned columns, the trunk door with triple arched top, flanked by further columns, on a cut cornered base and bracket feet, height 237cm, with pendulum, two weights and winder.

Estimate: £50 - £100

---

### Condition Report

1210. The clock is in generally good condition commensurate with age. No signs of woodworm and no significant damage or repairs. Typical minor faults such as chips to veneer, scuffs, minor splits etc. Everything is in place for it to work with pendulum, weights and winding key all present, but we do not test the longcase clocks, they are sold as seen and we do not give any guarantees to working order or reliability of any clock. Usually a longcase clock and many other clocks need to have a service and be set up correctly to run as they should. Height 237cm, width of hood 62cm, width of base 58cm, depth 25cm.
