

Collectors' Items, Works of Art and Light Fittings / Thu, 5th November 2020 / Lot 2723

LOT 2723

A 20th century copper and brass 'Dr Brown's Patent' ship's masthead navigation lamp with 10| prismatic lens, by Stevens & Son, height 30cm.

Estimate: £80 - £120

Condition Report

2723. The lens is made from six separate sections and there is one section with some chips to interior rear edge and some minor nicks to the edges of others. There is a burner inside, but this is just a small loose burner and cannot be sure if original.
