LOT 2679

An early 20th century cast brass National cash register, the case bearing cast serial number '1277576 652-6', height 60cm, width 50cm.

Estimate: £200 - £300

Condition Report

2679. The brass case is quite dirty, but appears to be in fairly good order. The left hand side that covers the mechanism is currently loose and the mechanism does look like it needs quite a bit of attention. The drawer does not stay closed and the mahogany base is quite scuffed and scratched.
