LOT 2055

A mid-Victorian burr walnut Davenport by Thomas Turner of Manchester, the hinged writing surface above drawers, on bun feet, height 91cm, width 66cm, depth 57cm (alterations).

Estimate: £120 - £180

Condition Report

2055. The Davenport has had an overall restoration and re-polish fairly recently, but this also involved building a set of drawers to the other side of the desk. The set of drawers on the right side are original, but the set on the left, which would have been dummy fronted, have been converted into drawers too. Otherwise, there are some overall minor scuffs and scratches.
