LOT 2685

A 19th century Swiss music box, the lever-wind movement playing eight airs on a 33cm cylinder, within a simulated rosewood case, height 18cm, width 61cm.

Estimate: £200 - £400

Condition Report

2685. There are two teeth missing on the left hand end of the comb. The winding mechanism is working, but the small jewel button on the top of the flywheel plate is missing, so it needs pressing to operate. There has been extensive woodworm and repair to the case, mostly to the rear panel.
