

British and Continental Ceramics / Thu, 19th November 2020 / Lot 1637

LOT 1637

A Burmantofts jardinière stand, circa 1900, of column form relief decorated with panels of sunflowers within green glazed borders, impressed marks with numerals '1984', height 71cm (small chip to footrim).

Estimate: £30 - £50

Condition Report

Overall typical fine crazing to glaze.

Approx 2.5cm long by 1cm wide chip to outer edge of foot - see images on our website. There is some typical minor rubbing/scratches to upper surface where a jardinière would sit.

There is a minor glaze chip to one brown stem on one floral panel - not really noticeable apart from on closer inspection, and a similar glaze chip to the upper edge of the green glazed foot.

The glazing on the panels is good with no running.
