### Condition Report

Fundamentally the service is in good condition overall with no cracks, chips or restoration. The decoration remains bright and strong overall.

There is evidence of it having been used as there are certain pieces which display knife cuts/surface scratches, e.g., the desert bowls and the open serving dishes - this is not overly noticeable, but there is some wear to the gilding on these pieces which the eye is distracted by a little. The cake plate is particularly worn and scratched (the previous owners obviously had a lot of cake).

One of the cups is crazed.
