LOT 668

A foil backed garnet, foil backed emerald, cultured pearl and enamelled pendant necklace, probably Austro-Hungarian, in a Renaissance Revival design, on a seed pearl and green gem set oval clasp, pendant diameter 2.5cm, length 40.5cm, with a case.

Estimate: £150 - £250

Condition Report

Mount is silver that would originally have been gilded, this gilding is now largely lacking. One seed pearl missing from small cluster above principal cluster. Emeralds are of pale colour saturation and maybe foil backed. Some of the emeralds have surface reaching inclusions, the garnets are in good condition. Enamel work in good condition. Neckchain is replaced and looks to be gold whilst still retaining the original clasp. Case not original to piece and lacks push in button.
