Condition Report

Diamond ring - one of the diamonds has a substantial chip, the other diamonds are slightly drawing colour and have a few internal inclusions, some of which are surface reaching. Test mark to edge of ring which would suggest over-gilding.

V-shaped ring - one red gem lacking. All synthetic stones. Ring otherwise has foreign gold marks which include '750'.

Cases - one old, one modern. Old case has stain to top, otherwise wear commensurate with age.
