### LOT 739

A gold and diamond two stone ring, collet set with cushion cut diamonds in a crossover design, detailed '18ct', weight 1.7g, ring size approx N1/2.

Estimate: £100 - £150

### Condition Report

One of the diamonds has an inclusion that just reaches the surface to the side of the diamond. Diamonds otherwise look to be attractive white stones.

Side of top of ring should meet closer to the collet setting of the diamond, slightly misshapen.

Would benefit from professional cleaning.
