LOT 1072

A Chinese Canton export lacquer folding fan, mid-19th century, the brown lacquered guards and fourteen sticks supporting a paper panel painted in gouache with a continuous figural scene, each figure with applied ivory facial detail, length 28cm, within a gilt framed and glazed display case.

Estimate: £80 - £120

Condition Report

The fan is enclosed within a sealed, framed and glazed display case, so a detailed condition report of the fan itself is not possible. The side on view appears to be in generally good condition with a couple of minor cracks to the surface lacquer apparent to the two central sticks. There is also some minor paper loss along the bottom edge of the panel - please see the extra images on our website using the zoom function - there is typical wear to the creases of the folding fan and some minor repairs, otherwise it appears in generally good condition with good vibrant colours and a nicely presented case.

It is not possible to inspect the other side of the fan because of the sealed frame.
