

Jewellery / Wed, 13th January 2021 / Lot 501

LOT 501

A gold and opal single stone ring, mounted with an oval opal between decorated shoulders, detailed '585', weight 5.6g, ring size approx N1/2.

Estimate: £180 - £220

Condition Report

The opal has an attractive play of colour principally purple and blue, shank to ring is a little thin at the back, otherwise in good condition. There is a tiny hair crack to the outside of the back of the shank, which is of a thin design. Please note that the photographs of the ring have been taken under flash, the opal itself in natural light is darker and has less play of colour. The darker areas in the image are a mixture of dirt, shadows and wear to the high points of the design. Suggested age, 1950s/60s. Length of opal 2.2cm, width of opal 1cm.
