LOT 584

A 9ct white gold ring, mounted with alternating pairs of baguette and single circular cut diamonds in a two row design, detailed '.33', weight 2.1g, ring size approx L1/2.

Estimate: £50 - £70

Condition Report

584. The diamonds generally look to be fairly clear stones, with one or two internal inclusions, on one diamond there is an inclusion to the edge of the table facet. There is slight variation of cut to the baguette diamonds and the setting to the top of one baguette diamond at one end is a bit worn. The ring is currently rather dirty and would benefit from professional cleaning.
