Condition Report

1021. The watch is in cosmetically good clean condition with no significant damage or repairs. Couple of very minor scratches to glass, but case and dial are good and fresh. The inner scale rotates smoothly. The watch winds and adjusts smoothly but unfortunately it does not run. The stopwatch button depresses, but the second hand does not move freely, on occasion it moves for 2 or 3 seconds and then stops. The top reset button works as it should and returns the hand to its place. Strap also in good clean condition.
