Condition Report

1118. The clock is in generally good restored condition.

The mahogany case has no significant damage or repairs, but has typical veneer splits, scuffs etc.

The dial has light crazing with some slightly more unstable areas where there are signs of some minor lifting to paintwork.

The movement winds smoothly and is currently running but please be aware we give no guarantees to working order or reliability of any clock or watch. The strike mechanism is also working as it should.
