Condition Report

All three in good original condition, no foxing or tears, but very minor age toning. 'Seed Heads & South Downs' doesn't have any colour to the sky and is therefore probably faded.

Mounts are not archival and have started to brown along the cut edges, this has not transferred to the paper yet. All three frames have rubbing and loss to the gold leaf in varying degrees of severity. Minor scuffs and scratches to Unexamined out of frames.
