LOT 2230

A late 19th century ebonized upright piano by C. Bechstein, Berlin, circa 1887, bearing serial number '19495' to frame, overstrung, height 120cm, width 147cm.

Estimate: £80 - £120

Condition Report

2230. The case has a general overall surface wear, with small scuffs, marks and scratches. One of the keys has a small hairline crack and on low 'f' note does not play very well. The rest plays ok, but with the lower register a little bit flat. The mechanism would need an overhaul and tune.
