

Furniture / Thursday, 18th March 2021 / Lot 2099

LOT 2099

A set of eight Regency stained beech and brass inlaid dining chairs with striped damask seats, height 82cm, width 46cm (one chair with alterations).

Estimate: £120 - £180

Condition Report

2099. One chair has professionally re-spliced ends to all four legs and has a slightly darker overall surface polish.

One other chair has also had the lower sections of the legs re-spliced and had the bar back replaced, which is different to the rest of the set and is missing its brass inlay. This chair is also slightly darker overall. These two may have been re-polished to hide the restoration that has taken place.

The other six chairs have a more worn surface with overall surface wear and scuffs, there is some very minor areas of woodworm throughout the set, but otherwise they are in fairly good order with very nicely upholstered seats.
