

British and Continental Ceramics / Tuesday, 16th March 2021 / Lot 1442

LOT 1442

A Beswick cedar waxwing, No. 2184, height 11.7cm.

Estimate: £50 - £70

Condition Report

In good condition overall with no cracks, chips or restoration.

There is a manufacturer's decorated and glazed over minuscule nick to the underside edge of the beak tip - only properly visible under magnification. Also, there are two random glazed over black enamel pinhead sized spots to the back edge of the footrim - again a manufacturing fault.
