LOT 2643

Circle of John Smart - an oval miniature half-length portrait of a gentleman, watercolour on ivory, within a gold frame, 5.3cm x 4.3cm, within a later gilt glazed case.

Estimate: £60 - £100

Condition Report

2643. The portrait and pendant mount are glazed and cased in a later frame, so it is uninspected out of the frame. The portrait itself has a shiny patch of something on the surface to the right of the face and this area of the background is slightly dried out, with minor surface cracks to the paint. Also two small surface cracks just above his hair and some overall slight fading.
