

Clocks and Barometers / Wednesday, 28th April 2021 / Lot 1101

LOT 1101

An early 20th century oak circular wall timepiece with eight day movement, the 12-inch repainted circular dial with Roman hours and inscribed 'Wakefield & Son Horsham', within a moulded circular surround, diameter 39cm, with pendulum.

Estimate: £200 - £300

Condition Report

1101. The timepiece is in generally good clean condition, very much as it appears in our online images. The dial has been repainted and the case is a little dusty and dirty.

The movement winds smoothly and runs, but at present only for 5-10 minutes. Possibly a clean needed.

Please note - this was originally incorrectly catalogued as a fusee movement. It is not a fusee movement.
