

Clocks and Barometers / Wednesday, 28th April 2021 / Lot 1091

### LOT 1091

An early 18th century oak cased longcase clock, the thirty hour movement striking on a bell, the 11-inch square brass dial with silvered chapter ring framing a silvered centre with date aperture and inscribed 'Edwd Bilbie Chewstoke', all cornered with cast and pierced gilt brass urn and scroll spandrels, the veneered case with moulded pediment and glazed hood door, flanked by turned columns, the arched trunk door with inlaid star motif within carved foliate bands, on a plain base and bracket feet, height 228cm, with pendulum, weight and winder (alterations and restoration). Note: Edward Bilbie is a recorded clockmaker working in Chewstoke, Somerset, between 1699 and 1724.

Estimate: £80 - £120

---

### Condition Report

1091. The clock is in generally sound restored condition.

Dial and movement in generally good condition with no significant issues, typical light wear.

Case has been restored, but still some typical scuffs, knocks etc. Three brass finials are modern. Both side panels are cracked and both sides of hood have splits. Also split to base. There is padding to the cheeks of the case which would suggest the movement and case are a marriage.
