

Jewellery / Wednesday, 12th May 2021 / Lot 509

LOT 509

An emerald and diamond three stone ring, mounted with the rectangular step cut emerald between two cushion cut diamonds, weight 3.4g, ring size approx S1/2.

Estimate: £600 - £800

Condition Report

509. The emerald is of medium to pale colour saturation and has internal inclusions, some of which are surface reaching. There are three or four black inclusions, with one larger black inclusion near to a claw at the edge. The diamonds are slightly drawing colour but look to be fairly clear stones. Ring mount is a little worn but plenty of life left.
