### LOT 669

A 9ct white gold ring, mounted with an oval cut diopside between circular cut diamond set four stone shoulders, weight 2.1g, ring size approx R, with a case.

Estimate: £50 - £70

---

### Condition Report

669. Diopside has one or two tiny edge nicks and is of medium colour saturation. The shoulder diamonds have one or two internal inclusions. We would not necessarily recommend re-sizing this ring as the resulting strain on the setting of the stones might mean some could come out of their setting.
