LOT 686

A five row bracelet of coral beads on a gold and coral oval clasp, detailed '750', weight 20.3g, length 16.5cm, and a quantity of loose coral beads.

Estimate: £150 - £200

Condition Report

686. Coral beads are well matched to the coral clasp. They appear to have been recently restrung and are in good condition. The rows of corals do not lie in perfect alignment when laid flat, this could be a result of slight variation of bead size. We note that each of the beads is individually knotted near to each section of the clasp but not individually knotted throughout the bracelet. The beads are of deep salmon pink colour saturation. Length of clasp – 2.2cm. Sample size of bead – 3mm diameter.
