### Condition Report

708. The sapphire is of medium to dark colour saturation and has some degree of surface wear. The diamonds are attractive white stones and look to be fairly clear. The ring would benefit from professional cleaning as it is currently rather dirty. Some of the claws are a bit worn, particularly to the sapphire and require re-tipping. The ring is overall a bit worn. Suggested age – 1930s. The mark indicating gold quality is obscured but looks to be high grade gold, perhaps 18ct.
