

Jewellery / Wednesday, 12th May 2021 / Lot 722

LOT 722

An 18ct gold, sapphire and diamond three stone ring, weight 3.4g, ring size approx N1/2.

Estimate: £300 - £400

Condition Report

722. The sapphire has a small chip to the corner of the table facet which has caused a small internal fracture. Some general wear to the facet edges. Medium to pale colour saturation, with unevenness of colour when looking at the sapphire straight on.

The diamonds have one or two dark internal inclusions, one of which is surface reaching.

The ring is dirty, otherwise it is generally good condition with no signs of repair, re-sizing or splits to setting/shank.
