### Condition Report

Larger work: in good original condition. No dents or holes and free from surface dirt. Canvas is slightly coming away from the stretcher along the top edge to the reverse, but canvas relatively tight still. Frame with some knocks to corners and other minor scuffs.

Smaller work: overall slight yellowing to surface, difficult to establish if this is the overall tone, or whether it is a discolouring varnish or nicotine staining. Some craquelure, particularly near the bottom with a couple of small areas of paint flaking. Canvas is a little slack but not significantly so. Frame with minor scuffs and scratches.
