LOT 229

Charles Auguste Edelmann - Head and Shoulders Portrait of a Woman wearing a Headscarf, early 20th century pastel, signed in pencil, 34.5cm x 25.5cm, within a gilt frame.

Estimate: £40 - £60

Condition Report

Generally it is in good condition. It is difficult to establish whether the buff paper has age-toning, but the pastel colours do not seem to be muted. There is some pastel dust to the inside of the glass and trapped between the mount and glass too. Mount and backing does not appear to be archival. Frame with light scuffs. This work has not been examined out of the frame.

Provenance

Consigned by a private collector who we have known for many years.
