## LOT 657

A gold and peridot single stone oval hinged bangle, collet set with an oval cut peridot between foliate pierced shoulders, on a snap clasp, fitted with a safety chain, weight 9.4g, inside width 5.6cm.

Estimate: £150 - £200

## Condition Report

657. The peridot has some surface wear to the facet edges and is scratched across the surface of the table facet. The gold is in good condition. It is likely to be around 9ct due to visible evidence of copper in the alloy giving a slightly rosy tinge. When originally made it would have probably have been over gilded which has now largely worn away. The hinge is in good condition. There are one or two small dents to the side of the bangle. The bangle is unmarked.
