LOT 736

A gold, moonstone and seed pearl pendant, designed as a wreath and two flowerheads with an oval central moonstone and a pear shaped moonstone to the drop, weight 3.1g, length 4.8cm, with a gold neckchain, detailed '9ct', on a cylindrical clasp, weight 2.3g, length 44.5cm.

Estimate: £220 - £280

Condition Report

734. The central section with moonstone and the moonstone drop are probably later additions to the piece. All seed pearls present and appear well matched. There is some thinning to the necklace links in places where it may need attention to ensure the security of the pendant. Clasp in good working order. Overall an attractive pendant, would probably benefit from a professional clean.
