

Jewellery / Wednesday, 30th June 2021 / Lot 724

LOT 724

A white gold, sapphire and diamond cluster ring, mounted with a cushion cut sapphire within a surround of six cushion cut diamonds, detailed '18ct', weight 2.3g, ring size approx N.

Estimate: £300 - £400

Condition Report

724. The sapphire has some unevenness of colour, quite noticeable to the centre of the stone. It is generally of pale to medium colour saturation. Colour zoning noticeable under magnification. Diameter approx 2.5mm. Some variation in size to the surrounding diamonds, with one or two internal inclusions. Diameter 2mm approx and below.

Couple of small cracks to the cluster, to the sides of one claw. One or two claws beginning to show signs of wear.
