LOT 792

A Victorian 15ct gold and gem set 'Regard' ring, Birmingham 1874, weight 1.2g, ring size approx M.

Estimate: £100 - £150

Condition Report

792. Heavy wear to the amethyst, which has lost its lustre and appears matt. Noticeable wear to the other stones on table facet edges. Some claws worn and need re-tipping. Shank probably resized in the past. Hallmarks still crisp. On one side of the mount the engraved decoration has almost been completely worn away and appears plain, most likely as a result of contact with other rings. The other side is more intact, with only minor wear.
