Condition Report

1175. The clock is in generally good condition with typical restoration and re-touching to ebonizing. We would suggest this restoration was carried out approx 20 years ago when the vendor purchased the clock from a well known clock dealer, it was purchased in retail condition. There is no significant damage or repair since as the ebonizing has typical light wear, scuffs and nicks, and small split to top.

Dial in good condition with some minor marks and wear.

Movement winds smoothly and runs, and striking mechanism is running as it should, but please be aware we give no guarantees to working order or reliability of any clock or watch.

Lock plate to back door is a later replacement.
