## Condition Report

2563. The relief appears to be in good order, with just some surface dirt. Edges have some small areas of white paint where the panel appears to have been re-painted. There is a small mark just under his ear, but otherwise appears in good condition. The frame has some overall losses to the gesso around edges and corners.

The relief itself measures 21cm x 13cm, and is on a panel that measures 25.5cm x 25.5cm.
