LOT 2547

A late Victorian rhino horn and silver mounted riding crop, London 1889, length 61.5cm. Note: as this lot incorporates rhinoceros horn, it would be very unlikely that a re-export certificate would be granted beyond the UK. Customers outside the UK are requested NOT to bid on this item.

Estimate: £400 - £600

Condition Report

2547. The crop has been reduced in size where it has broken at the bottom. There is a split at the top where it meets the silver cap. The silver cap has multiple small dents.
