

Jewellery / Wednesday, 4th August 2021 / Lot 560

LOT 560

An aquamarine and diamond oval cluster ring, collet set with the oval cut aquamarine within a surround of circular cut diamonds, aquamarine weight approx 1.55ct, total diamond weight approx 0.40ct, ring size approx M1/2.

Estimate: £700 - £900

Condition Report

560. The aquamarine is of medium to pale colour saturation. The aquamarine is in good condition. The surrounding diamonds are generally in good condition, one does have a chip to the edge of the table facet. Another diamond has a surface reaching inclusion on the table facet. The indistinct mark within the band, which appears to be cast, would suggest platinum. There is fluff attached to a sticky patch on the shank, this is not hiding any damage. The ring is of recent manufacture.
