### LOT 644

A gold, emerald and diamond cluster ring, mounted with the cut cornered rectangular step cut emerald within a surround of circular cut diamonds between diamond set stepped shoulders, detailed '750', weight 4.4g, ring size approx J.

Estimate: £300 - £400

### Condition Report

644. The emerald has a chip to one table facet edge, which is beside an internal and surface reaching fracture inclusion, this expands across the stone internally. Another chip to one of the corners. The emerald is of pale to medium colour saturation. Emerald size approx 7.5mmx 7.5mm. General wear to the table facet edges.

Diamonds have one or two internal inclusions and one or two have small chips to facet edges hidden by claws. The shank has some wear and thinning to the back. The ring is quite dirty and would benefit from a professional clean. Age possibly 1960s/70s.
